Target version:	0.2.1		
Redmine version:		**External issue:**	

Description

After successful installation of extended_fields, both
adminstration → projects and
administration → users
yield an error message:

```
Internal error

An error occurred on the page you were trying to access.
 If you continue to experience problems please contact your Redmine administrator for assistance.

If you are the Redmine administrator, check your log files for details about the error.

Applied fix of user#687 (#2136)

History

#1 - 09 Jan 2013 16:03 - Alexander Kuznecov

Hello,

We have faced with this error too:

```
NoMethodError (undefined method `empty?' for nil:NilClass):
  vendor/plugins/extended_fields/app/models/user_list_setting.rb:40:in `columns'
  vendor/plugins/extended_fields/app/models/user_list_setting.rb:14:in `initialize'
```

I have managed myself with fixing this error by changing line 40 in vendor/plugins/extended_fields/app/models/user_list_setting.rb
from
fields = list_class.default_columns.collect{ |column| column.name } if fields.empty?
to
fields = list_class.default_columns.collect{ |column| column.name } if fields.blank?

#2 - 10 Jan 2013 14:52 - Frank Dautzenberg

Going to try this solution in the testing environment.
How soon can we expect an updated package being available?

#3 - 10 Jan 2013 15:26 - Frank Dautzenberg

The solution was not really diffcult to test
Worked OK!

#4 - 20 Jan 2013 23:39 - Andriy Lesyuk

- Status changed from New to Open

- Assignee set to Andriy Lesyuk

#5 - 24 Jan 2013 13:42 - Andriy Lesyuk

- Tracker changed from Bug to Patch

- Due date set to 24 Jan 2013

- Status changed from Open to Closed

- % Done changed from 0 to 100

Thanks for the fix, Alexander!
