

## Orangutan::Redmine - Feature #1076

### Due date setting context

<b>Status:</b> Open	<b>Start date:</b>

**Description**

A special context should be added to allow setting due date for an issue.

Sample:

```
User: Set due date of #1076 to 21 October
```

Alos the context should support the following queries:

```
User: I must finish #1076 in 7 days
```

This way user won't need to calculate the due date - Orangutan will do this for him/her (of course, Orangutan should count only work days by default).

### History

#### #1 - 07 Dec 2010 16:21 - Andriy Lesyuk

- Start date deleted (30 Oct 2010)

Context should be called as request when user closes an issue (maybe on some other actions as well):

```
Orangutan: You don't have due date set... Can I set it to today?
```
