

Orangutan::Redmine - Feature #124

Let users specify what they did during a break by answering on break question

09 Mar 2010 17:47 - Andriy Lesyuk

Target version:			
Description Saying I'm working on something and suddenly my manager asks me to attend a meeting. Saying the meeting lasts for an hour. When I get back Orangutan asks me if he should record a break. That's fine! But it would be cool if I could answer something like: "Yes... I had a meeting with my manager.". And he would add this as a task.
