<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Description</b>	
1) Yes, we have <b>show tasks</b> and this give us like this:	
<pre>(04:51:14 PM) alundyak@jabber.sjua/: show tasks (04:51:14 PM) Orangutan: This is what I found: 1) Tue, Dec 28 10:30 - 11:58 (1:28): working on SCRUM research on #1457 for Research (Normal) 2) Tue, Dec 28 12:52 - 13:16 (0:24): working on SCRUM research on #1457 for Research (Normal) 3) Tue, Dec 28 13:20 - 14:17 (0:57): work on #1457 for Research (Normal) 4) Tue, Dec 28 14:17 - 14:28 (0:11): cont work on #1457 for Research (Normal) 5) Tue, Dec 28 14:35 - 14:49 (0:14): svn update work on #1447 for SVS (Normal) 6) Tue, Dec 28 15:24 - 15:54 (0:30): cont work with Agile research on #1457 for Research (Normal) 7) Tue, Dec 28 15:55 - 16:30 (0:35): start working with Netbeans IDE + PHPunit on #1462 for SVS (Normal) 8) Tue, Dec 28 16:30 - 16:32 (0:02): Create FR on #1463 for Redmine (Normal)</pre>	
2) It's ok, but I would like to have ability to see entire list of logs. Example is in attached file <b>201012.log</b>	
<pre>10.12.02 11:54:08 Orangutan: Got it!.. I hope this task is not very complex and you'll get it done easily. The issue is Task #1304 "SVS_DEMO update sql script" (project is "SVS"). Assuming the activity is "Normal"... 10.12.02 12:03:15 Orangutan: User odemyanyuk@jabber.sjua modified the following in Bug #1255 "Project Can not be created if no technologies" (Redmine):     o set status to Resolved     o completed at 100%     And wrote the following:     Done 10.12.02 13:22:11 alundyak went away 10.12.02 13:50:02 alundyak went online 10.12.02 13:50:02 Orangutan: You went away at 13:22 that is 28 minutes ago. Should I record a break? 10.12.02 14:20:03 Orangutan: Ok... Breaking the task 10.12.02 15:08:45 alundyak went away 10.12.02 15:12:59 alundyak went online 10.12.02 15:18:01 alundyak went away 10.12.02 16:09:52 alundyak went online 10.12.02 16:09:52 Orangutan: You left at 15:18 that is 51 minutes ago. Should I stop the task on that time and reopen it? 10.12.02 16:25:51 alundyak went away 10.12.02 16:26:00 alundyak went online</pre>	
3) Would be great to have ability to see logs for some period (hour, some hours, day)	
3.1) More than 1day is to much for Jabber Client and it will be not useful
