

Orangutan - Enhancement #1601

Configuring contexts weights

01 Feb 2011 13:45 - Andriy Lesyuk

Status:	Incomplete	Start date:	02 Feb 2011
Priority:	Normal	Due date:	02 Feb 2011
Assignee:	Andriy Lesyuk	% Done:	0%

Target version:	2.00		

Description

This was a part of [#1081](#) but I figured out that current configuration file format is too limited.

With current format such could be done with:

```
contexts.request_weight = Issue:10
contexts.response_weight = Issue:10
contexts.filter_weight = Issue:10
```

This is odd!..

There should be an easier way to change weight like:

```
Context Issue {
  Weight 10
}
Context Task {
  Weight {
    Response 10
  }
}
```

Changing weight maybe needed to change the priority of contexts. This way Orangutan will became more flexible.
