Orangutan::Redmine - Bug #1613

Guarantee that a notification will come to end user

02 Feb 2011 18:31 - Andriy Lesyuk

Description

Right now Orangutan notifies users about changes made to issues etc. But... There are several problems here:

1. If Orangutan crashes it won't notify about changes made until crash (if he have not yet) – that is Orangutan should save the "pool" of notifications somewhere;
2. It does not take into account user's Redmine notification settings (see #1029);
3. It does not send everything in a pool to a user – it sends only notifications less than 5 days old.

I'm not sure about the last. Are you interested in getting notifications older than 5 days?!..

If this should be done better I guess to inform users about older notifications this way:

```
Orangutan: ... <Actual notification 1> ...
Orangutan: ... <Actual notification 2> ...
Orangutan: ...
Orangutan: ... <Actual notification <N>> ...
Orangutan: There are 10 older notifications... Whould you like to check them?
User: Yes
Orangutan: ... <Old notification 1> ...
Orangutan: ...
```
