Description			
Facebook uses META description as a description of a link you have liked. Redmine always sets it to "Redmine" what is not informative at all.			
So this should be fixed somehow to:			
<ul style="list-style-type: none">• use project description of project overview page;• use short news text for news page;• use short wiki text for Wiki page.			
Reported a bug on Redmine.Org : #7983.
