Target version:	0.1.0		
External issue:			

Description

SVN repositories are open public. So as I understand the following should be supported:

```
# ruby script/plugin install http://subversion.andriylesyuk.com/<identifier>
```

But a user reports that it says: 500 Internal Server Error

History

#1 - 19 Apr 2011 13:24 - Andriy Lesyuk

- Status changed from *Incomplete* to *Open*
- Target version set to *0.1.0*

#2 - 19 May 2011 22:55 - Andriy Lesyuk

- Due date set to *19 May 2011*
- Status changed from *Open* to *Closed*

This works:

```
root@squeeze:/usr/share/redmine# ruby script/plugin install http://subversion.andriylesyuk.com/redmine-google-ads
+ ./app/controllers/google_adsense_controller.rb
+ ./app/helpers/google_adsense_helper.rb
+ ./app/models/google_ad.rb
+ ./app/views/google_adsense/_form.rhtml
+ ./app/views/google_adsense/index.rhtml
+ ./app/views/google_adsense/load.rhtml
+ ./app/views/placeholders/_default.rhtml
+ ./app/views/placeholders/_issue.rhtml
+ ./app/views/placeholders/_issues.rhtml
+ ./app/views/placeholders/_project.rhtml
+ ./app/views/placeholders/_welcome.rhtml
+ ./assets/images/google.png
+ ./assets/stylesheets/admin.css
+ ./assets/stylesheets/google.css
+ ./config/locales/en.yml
+ ./config/placeholders.yml
+ ./config/routes.rb
+ ./db/migrate/001_create_google_ads.rb
+ ./init.rb
+ ./lib/google_adsense_hook.rb
+ ./lib/placeholders.rb
```

But not sure that everything is supported...
