The method described on the link won't work for Redmine... It requires the following HTML structure:

```
<html>
  <body>
    <div id="wrapper">
      <div id="main">
      </div>
    </div>
    <div id="footer">
    </div>
  </body>
</html>
```

And the structure of Redmine HTML is:

```
<html>
  <body>
    <div id="wrapper">
      <div id="wrapper2">
        <div id="main">
        </div>
        <div id="footer">
        </div>
      </div>
    </div>
  </body>
</html>
```

- Status changed from Incomplete to Open

Recent Redmine comes with #wrapper3, that can help...

#4 - 15 Dec 2013 12:59 - Andriy Lesyuk

- Status changed from Open to In Progress

- % Done changed from 0 to 50

#5 - 15 Dec 2013 13:54 - Andriy Lesyuk

- Status changed from In Progress to Deferred

If #wrapper and #wrapper2 are set to min-height: 100%, it does not work. If they are set to height: 100%, scrolling does not work...
