Category:	Redmine plugin idea	**Estimated time:**	0.00 hour
Target version:			

Description

It's interesting to know what files are downloaded more times. Currently I log in into the database and do:

```
SELECT filename, downloads FROM attachments WHERE downloads > 0 ORDER BY downloads DESC;
```

Why not creating a simple plugin?..

History

#1 - 20 Jul 2011 14:58 - Andriy Lesyuk

- Priority changed from Normal to Insignificant

#2 - 29 Aug 2011 15:06 - Andriy Lesyuk

- Status changed from Open to Incomplete

Does not look to be very important... Changing to "Incomplete" to indicate that I doubt if I need it...

#3 - 12 Sep 2011 18:29 - Andriy Lesyuk

Hm... https://projects.littlestreamsoftware.com/projects/redmine-download

#4 - 05 Mar 2012 17:08 - Andriy Lesyuk

- Due date set to 05 Mar 2012

- Status changed from Incomplete to Closed

Going to be implemented as a part of **Extended Fields**...
