SCM Creator (+Github) - Feature #1760

Make SCM optional even with auto_create

Description

We use Redmine for projects which don't really have source code; I don't think repository creation should be forced with auto_create. I attach a really ugly patch just for the PoC of what I think should be done. Ugly because there's some business logic in a view, which should probably go into a controller helper like the repository helper, and I hacked the project class patch just to "make it work" although I don't really looked for what a safe_attributes is (and maybe the after_create should be filtered with a "if @scm" ?)

History

#1 - 30 May 2011 15:39 - Andriy Lesyuk

- Status changed from New to Open

- Assignee set to Andriy Lesyuk

- Target version set to 0.1.0

Yeah! You are right! auto_create should not mean "force"... Thanks for suggestion!..

I think I will may be add possible values to auto_create like: true, false or force (meaning true but require SCM)...

#2 - 01 Jun 2011 15:35 - Andriy Lesyuk

- Subject changed from Make SCM optionnal even with autocreate to Make SCM optional even with auto_create

- Due date set to 01 Jun 2011

- Status changed from Open to Closed

- % Done changed from 0 to 100

I believe I have fixed it!
