Orangutan - Improvement #18

Fix orangutan main file to make upgrade easier

07 Oct 2009 20:02 - Andriy Lesyuk

Target version:	0.03		

Description

Development version uses ./orangutan.conf, production one - /etc/orangutan.conf... Development version does not Daemonize, production version - does (of course). When uploading changes I need to fix this manually. I can forget to do this, of course... I would suggest /etc/orangutan.conf and Daemonize as default and -D for running in development style (or ./orangutan.conf and no Daemonize as default - as you wish).
