

## SCM Creator (+Github) - Bug #1800

### UnknownAttributeError 'extra\_report\_last\_commit' when adding an existing git repository in redmine

10 Jul 2011 09:29 - Bernd Vogt

<b>Status:</b>	Closed	<b>Start date:</b>	10 Jul 2011
<b>Priority:</b>	Critical	<b>Due date:</b>	19 Sep 2011
<b>Assignee:</b>	Andriy Lesyuk	<b>% Done:</b>	100%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	0.2.0	<b>External issue:</b>	
<b>Redmine version:</b>			
<b>Description</b>			
Belongs to Redmine 1.2.x			
Adding an existing git repository under <project> → Settings → Repository doesn't work with installed SCM creator under Redmine 1.2 anymore. It seems that a new attribute 'extra_report_last_commit' was introduced which is not supported by SCM creator yet.			
Unless this is fixed, SCM creator can't be used with Redmine 1.2.x

Fixes for 1.2.x (#1800)

#### History

##### #1 - 12 Jul 2011 13:37 - Andriy Lesyuk

- Status changed from New to Open
- Assignee set to Andriy Lesyuk

Thank you very much for reporting! Will do my best to fix this issue asap.

##### #2 - 18 Jul 2011 13:01 - Andriy Lesyuk

- Target version set to 0.2.0

##### #3 - 26 Jul 2011 11:20 - Roland Firmont

- File `attribute_patch.diff` added

Bug is caused by a change in edit function of repositories\_controller. There is a new field used to store extra information for repositories (could be used as a replacement for the `created_with_scm` field).

Attached patch fixes creation of git repositories.

##### #4 - 30 Aug 2011 13:34 - Matteo Pescarin

Since I was having the very same problem with redmine 1.2.1, I've applied the patch, tried it and it seems to work fine, that is: I've created a new project, went to the repo page, and tried to create a new git repo.

the log reports 200 OK on creation, and I see no error.

When going to the repo page of the project I get a 404 and the repo in the fs is not there (not even the dir has been created), and no errors whatsoever in the logs.

Consider that the user executing rails has writing permissions on `/var/lib/git/`

- *Status changed from Open to In Progress*
- *% Done changed from 0 to 30*

**#6 - 14 Sep 2011 22:05 - Andriy Lesyuk**

When going to the repo page of the project I get a 404 and the repo in the fs is not there (not even the dir has been created), and no errors whatsoever in the logs.

With the same symptoms I got errors in logs:

```
Creating SVN repository: /var/lib/svn/test-repo
Repository creation failed
```

The reason was write permission...

**#7 - 14 Sep 2011 22:07 - Andriy Lesyuk**

- *% Done changed from 30 to 80*

Thank you very much, Roland, for your find and patch!  
Included changes into SVN! Please confirm it works.

**#8 - 19 Sep 2011 06:36 - Andriy Lesyuk**

- *Due date set to 19 Sep 2011*
- *Status changed from In Progress to Closed*
- *% Done changed from 80 to 100*

I believe the issue has been resolved.
