Description

Hi, I've searched which project is responsible for this message when inspecting an issue

translation missing: es, label_votes: 0

The correct expression should be "votos".

I report this issue in Projects because I don't know the exact place to do it.

Thanks a lot for your work.

The Vote plugin is not mine.

The home page of the plugin seems to be: https://github.com/Ubik/redmine_vote
Probably you can post translation here: http://www.redmine.org/boards/3/topics/5506
But the plugin does not seem to be active...

Thank you!

Ok, closing it... Thinking about writing own a better vote plugin...
