

Orangutan::Redmine - Feature #183

Commenting issue/adding a note to an issue

01 Apr 2010 19:37 - Andriy Lesyuk

Status:	Closed	Start date:	28 Sep 2010
Priority:	Normal	Due date:	29 Sep 2010

Category:		Estimated time:	0.00 hour
Target version:	1.03		
Description Redmine seems to support adding comments to an issue. If Orangutan allowed seeing issue details it would be very good also to allow commenting an issue. The syntax can be: User: Comment on #125 Orangutan: Go ahead! Put your comments here. User: I believe...			

History

This is actually a very interesting idea...

Saying if Orangutan supports adding comments to an issue and is able to notify a user about new comments. The workflow can be like this:

You: Comment on [#183](#)
Orangutan: Put your comment
You: Yes, it really looks like an interesting idea!
Orangutan: Ok. Saved.
Orangutan: Whould you like to be added as a watcher to issue [#183](#)?
You: Sure
Orangutan: Added.
Orangutan: User [s-andy@jabber.sjua](#) just commented [#183](#):
I like you like it!
You: Reply in [#183](#)
Orangutan: Put your comment
You: Wow! It is almost real time chat... Like GoogleTalk with saving history to server...
Orangutan: Ok. Added.
Orangutan: User [s-andy@jabber.sjua](#) just commented [#183](#):
:)
You: Cool!

That is, as mentioned about, it can be like GoogleTalk or GoogleWave - saving all history to an issue comments...
