Projects - Feature #1832

Google webmaster tools etc.

29 Aug 2011 15:04 - Andriy Lesyuk

Status:	Won't Fix		**Start date:**	29 Aug 2011
Priority:	Major		**Due date:**	04 Oct 2011
Assignee:	Andriy Lesyuk		**% Done:**	0%
Category:	Redmine plugin idea		**Estimated time:**	0.00 hour
Target version:				

Description

The Meta plugin solves the issue with description and keywords... But there are a lot of other things it would be good to have...

The list is to be expanded but now I see at least:

- Authoring information:
    - http://www.google.com/support/webmasters/bin/answer.py?answer=1229920
    - http://www.google.com/support/webmasters/bin/answer.py?answer=1408986
- Site links *(very important for Redmine)*:
    - http://www.google.com/support/webmasters/bin/answer.py?hl=en&answer=47334
- Schema.org things:
    - http://googlewebmastercentral.blogspot.com/2011/06/introducing-schemaorg-search-engines.html
- etc

P.S. Looks like Meta plugin is to be renamed to something like "SEO"...

History

#1 - 24 Sep 2011 08:31 - Andriy Lesyuk

For some pages it can be useful to specify canonical links:
<link rel="canonical" href="http://www.example.com/...">

#2 - 26 Sep 2011 11:52 - Andriy Lesyuk

- Priority changed from Normal to Major

#3 - 04 Oct 2011 15:02 - Andriy Lesyuk

- Due date set to 04 Oct 2011

- Status changed from Open to Won't Fix

These issues should be perhaps added to the Meta plugin...

For now:

- <link rel="author" ... /> does not get displayed anywhere... and its SEO effect is controversial... As for Google+ there should be a button! So I'm forced to put a button?.. No!
- Site links have no distinct requirements... Redmine uses anchor texts! alt? I guess it's only for images... *(wonder how did ChiliProject manage to get links)*
- Schema.org? Not this time... Issue in Meta if needed!
