Target version:				
Description				
I guess it would be cool to have Twitter, Facebook etc. icons on each page somewhere in the hader...

History

#1 - 25 Sep 2011 17:35 - Andriy Lesyuk

- Category changed from The Redmine plugin to Redmine plugin idea

I guess this can be another plugin... The plugin can add some helper function like social_icons which will put buttons on site.
This should be company social links common for the whole site. The function should be put into layout base files.

- Priority changed from Insignificant to Major

#3 - 27 Sep 2011 12:04 - Andriy Lesyuk

- Category changed from Redmine plugin idea to The Redmine plugin

These will be just icons with just links... Placement is to be custom *(I think about below "personal page", bottom right to the logo)*. That is for different sites it will have custom placement. So not sure about the plugin... Will include it into my custom plugin.
