Description

- Browser sends languages it prefers (users speaks if correctly configured)...
- Authorized users set interface language...

A language parameter could be added to an advertisement. This way the plugin could ensure that language of an advertisement is known to user.

I believe such kind of filter will improve the plugin! For example, I will be able to post Ukrainian advertisements without being afraid that they will appear for users which do not speak Ukrainian.

History

#1 - 09 Sep 2011 07:20 - Andriy Lesyuk

- Due date set to 08 Sep 2011

- Status changed from Open to Closed

- Target version changed from 0.3.0 to 0.1.0

- % Done changed from 0 to 100
