Description

There was an idea to put SCM access command on "Overview" page... But this should be configurable *sure about the right way)*. So instead I suggest adding a Wiki macro e.g. {SCM}. This macro should produce:

svn checkout http://subversion.andriylesyuk.com/redmine-svn

Note: *This line is too long for "Overview" page but I'm not sure how to fix this. The macro instead can be placed on Wiki page.*

History

#1 - 05 Nov 2011 19:38 - Andriy Lesyuk

- Target version set to 0.4.0

#2 - 05 Nov 2011 19:39 - Andriy Lesyuk

May be only URL should be generated, e.g.

```
<pre>svn checkout {SCM} local_dir</pre>
```

#3 - 12 Feb 2012 16:18 - Andriy Lesyuk

I think macro will be:

- {{scm_checkout}} ⇒ svn co http://.../redmine-scm redmine-scm
- {{scm_checkout(scm_creator)}} ⇒ svn co http://.../redmine-scm scm_creator

#4 - 22 May 2012 05:50 - Andriy Lesyuk

- Target version deleted (0.4.0)
