

Projects - Feature #1867

Textile draft

01 Oct 2011 07:39 - Andriy Lesyuk

<b>Status:</b>	Incomplete	<b>Start date:</b>	01 Oct 2011
<b>Priority:</b>	Minor	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Redmine plugin idea	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
<p>I know that there are some plugins for this...</p> <p>I was thinking about saving what is previewed... That is: when a user clicks "Preview" the textile is saved to preview_drafts table with the URI path and user id. If something happens when a user comes to this URL again below textile area there will be link "Load from draft saved at Oct 1, 2011".</p> <p>This way drafts will get supported for <u>all</u> textile areas...</p> <p>When textile is saved (using this URI) a draft can be deleted (<i>not sure how to implement this</i>).</p>
