

SCM Creator (+Github) - Bug #1869

Copying of hooks dir doesn't work (for me)

14 Oct 2011 14:18 - Blaž Podržaj

Status:	Closed	Start date:	14 Oct 2011
Priority:	Normal	Due date:	22 Oct 2011
Assignee:	Andriy Lesyuk	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	0.3.0	External issue:	
Redmine version:			
Description Im using Redmine 1.2.1 and here's my scm.yml: <pre>production: auto_create: false deny_delete: false svn: path: /svnroot svnadmin: /usr/bin/svnadmin hooks: /path/to/svn-hooks url: https://redmine.mysite.com/svn</pre> Repos are created just fine under /svnroot but hooks from /path/to/svn-hooks are being copied to /svnroot/hooks directory (instead of /svnroot/<repo_name>/hooks) and since this directory doesn't exist it throws out an error: <pre>/bin/cp: cannot create regular file `/svnroot/hooks/': Is a directory</pre>

Fixed #1869 and #1879 (thanks Blaž Podržaj, Mike Hagedon and Clément Démoulins!)

History

#1 - 17 Oct 2011 18:17 - Mike Hagedon

I had the same problem, and I think this is a bug. Line 104 of lib/scm_repositories_controller_patch.rb reads

```
args << "#{path}/hooks/"
```

If you change it to

```
args << "#{repath}/hooks/"
```

hook copying should work. At least it did in my case!

#2 - 18 Oct 2011 08:53 - Blaž Podržaj

Thanx mate, it works!

#3 - 22 Oct 2011 09:19 - Andriy Lesyuk

- *Status changed from New to Open*
- *Target version set to 0.3.0*

#4 - 22 Oct 2011 11:06 - Andriy Lesyuk

- *Due date set to 22 Oct 2011*
- *Status changed from Open to Closed*
- *% Done changed from 0 to 100*

Thanks!
