<b>Redmine version:</b>			

#### Description

With extended\_profile installed, go to Administration→Groups, open a group and select the “Users” tab. Now typing in the “search for user” field will cause an internal server error.

<http://www.redmine.org/issues/5434> has the same problem.

This is with all other plugins removed.

A NoMethodError occurred in groups#autocomplete\_for\_user:

Still not getting how the plugin can cause this...

#### #4 - 17 Dec 2011 08:51 - Andriy Lesyuk

Not sure how to fix this issue and what is causing it... Most likely I won't fix it!

Most likely you don't need it to be fixed too... Just released brand new version of this plugin which should not contain this bug!

- *Target version set to 86*

**#7 - 15 Jan 2012 18:58 - Daniel Seifert**

Tested it again with the new version and extended\_fields and the issue seems to be gone. Thx!
