External issue:	
Description Right now the plugin supports syntax like <code>[[redmine>#9638]]</code> which forms a link to Redmine... Thinking also about allowing external Redmine/ChiliProject links... That is to allow syntax like: <ul style="list-style-type: none">• <code>[[redmine[projects.andriylesyuk.com]>#1906]]</code> which will generate a link to issue #1906 on another Redmine-powered site;• <code>[[redmine[projects.andriylesyuk.com]>wiking:Wiki]]</code> which will generate a link to external Wiki page on another Redmine-powered site. Not sure however how this feature is needed...

History

#1 - 15 Jun 2012 12:50 - Andriy Lesyuk

- Target version set to 1.0.0b

#2 - 07 Oct 2012 23:05 - Andriy Lesyuk

- Target version deleted (1.0.0b)

#3 - 06 Oct 2016 07:09 - Andriy Lesyuk

Probably, a better alternative is described in [#2413](#).
