Extended Fields - Bug #1944

Empty facebook value does not have a match

15 Jan 2012 19:11 - Daniel Seifert

Description

Running newly updated plugin (incl. extended_fields) after having used the old version before. Going to a project where a user without a facebook entry is shown I get the error below

```
A ActionView::TemplateError occurred in projects#show:

 undefined method `match' for nil:NilClass
 On line #28 of vendor/plugins/extended_profile/app/views/extended_profile/_author.rhtml

   25:        <%= link_to(image_tag('blog.png', :plugin => 'extended_profile'), link) %>
   26:      <% end %>
   27:      <% if facebook %>
   28:        <% link = facebook.value.match(%r{^[0-9]+$}) ? "http:/www.facebook.com/profile.php?id
=#{facebook.value}" : "http:/www.facebook.com/#{facebook.value}" %>
   29:        <%= link_to(image_tag('facebook.png', :plugin => 'extended_profile'), link) %>
   30:      <% end %>
   31:      <% if twitter %>
```

Changing line 28 to link = (facebook.value =~ %r{^[0-9]+$}) ? ... fixed the issue.

History

#1 - 15 Jan 2012 19:17 - Daniel Seifert

That said, with some of the old users there seem to be other issues. I have one user with an empty LinkedIn and empty Blog entry and he gets icons for those pointing to http://. The corresponding database entry is NULL.

#2 - 15 Jan 2012 19:27 - Daniel Seifert

Hmm, or after more testing:

1. I go to my profile, enter some values (but neither linkedin, blog and twitter), save it
2. in overview page, I have a blog, linkedin and twitter icon
3. remove values from database table (values are set to empty string)
4. go to my profile again, just hit save
5. again, I have a blog, linkedin and twitter icon visible!

- Status changed from New to In Progress

- Priority changed from Normal to Major

- Target version set to 1.1.0

Thanks for reporting!

#4 - 16 Jan 2012 09:11 - Andriy Lesyuk

- Project changed from Extended Profile to Extended Fields

- Target version deleted (1.1.0)

#5 - 16 Jan 2012 09:16 - Andriy Lesyuk

- Status changed from In Progress to Under Verification

- Target version set to 0.1.0

- % Done changed from 0 to 90

This bug is in the code for Author Box in Extended Profile... But it's caused by incorrect interpretation of a value returned by custom_value_for_user function of Extended Fields. So I decided to move this issue here!..

I could fix it in Extended Profile but this would need much more code (and could cause other errors later). Besides new Extended Fields is going to be released soon as it will contain some other fixes...

Please update Extended Fields from SVN and check!

#6 - 17 Jan 2012 13:37 - Daniel Seifert

Updated both and problem is gone. Thanks for the quick fix.

#7 - 18 Jan 2012 00:09 - Andriy Lesyuk

- Due date set to 17 Jan 2012

- Status changed from Under Verification to Closed

- % Done changed from 90 to 100

You are welcome!
