Description

I planned to include sorting for users listing in 0.1.0... But could not get it to work!

The problem is that #sort_update and #sort_clause are executed in #index and I could not influence them using alias_method_chain...

The only workaround is to override #index what I would like to avoid... At least for 0.1.0 I'm not going to do that! So postponed this feature and created this issue...
