Target version:	
Description Since the tracker has been open no omission was committed! There are two reasons for this (ones I see): <ul style="list-style-type: none">• No one knows what is Omission! To make things clearer I plan to add short instruction to sidebar of "New issue" page (see #1773).• There should be an easy way to add omission! In fact all I need is a sentence! This English sentence should be clear enough to make me understand what Orangutan should do after receiving it... So I plan to write a very little plugin which will add a small form to sidebar having only one input field: e.g. "Omitted request".
