SCM Creator (+Github) - Bug #2046

Repository form replacement does not work on Redmine 1.4.2

08 Jun 2012 10:58 - Martin Corino

Status:	Closed		**Start date:**	08 Jun 2012
Priority:	Major		**Due date:**	
Assignee:	Andriy Lesyuk		**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Redmine version:	1.4.2		**External issue:**	

Description

The intended replacement of the repository editing form (app/views/repositories/_form.html.erb > vendor/plugins/redmine_scm/app/views/projects/settings/_repository.rhtml) does not work in Redmine 1.4.2. Instead the original form is used. As a result (among others) the only_creator config setting does not work.
Hooking repository_field_tags does work, so the [Create new repository] does appear and at first glance everything seems to work

History

Hm... Testing it under 1.4.2 and it seems to work...

I assume you don't use the latest revision? And I still work on :only_creator (a little changes left).

We're using revision r94.
We are also using the Redmine Checkout plugin which also hooks the repo management. Could be that also is of influence. No problems with the functionality from that plugin though.

You can also subscribe to this project using "Subscription" on the sidebar to get notifications about new commits/revisions...

#5 - 09 Jun 2012 10:40 - Andriy Lesyuk

- Target version deleted (0.4.0)

I believe now it should work fine...

#6 - 19 Jun 2012 09:53 - Andriy Lesyuk

Can you confirm?

Unfortunately I cannot confirm at the moment since there was no time anymore to update the system before it was rolled out. The problem is currently worked around.
