SCM Creator (+Github) - Bug #2047

Internal Error on repository creation in Redmine 1.4.2

08 Jun 2012 11:06 - Martin Corino

Status:	Closed		**Start date:**	08 Jun 2012
Priority:	Major		**Due date:**

Category:			**Estimated time:**	0.00 hour
Target version:				
Redmine version:	1.4.2		**External issue:**	

Description
When attempting to create a new repository with the same path as an already earlier created repository (multipe repos in one project) Redmine crashes and displays an Internal Error.   As SCM Creator already overloaded standard Redmine behaviour by automatically proposing a different pathname on a new repository I expected SCM Creator to return a validation error when I forced the path to be identical to an existing repository. It seems however that Redmine 1.4.2 compatibility is not 100% though.

Revision r94

#3 - 08 Jun 2012 12:36 - Andriy Lesyuk

Please try updating to the latest

#4 - 09 Jun 2012 10:39 - Andriy Lesyuk

- Target version deleted (0.4.0)

This issue is unconfirmed - please update as soos as you test the recent code.

#5 - 19 Jun 2012 09:51 - Andriy Lesyuk

This should be fixed already...

Unfortunately I cannot confirm at the moment since there was no time anymore to update the system before it was rolled out. The problem is currently worked around.
