<b>Redmine version:</b>			

#### Description

Hi there;

I tried to use your plugin but it sounds there is an issue with the newest version of redmine as when I ran the plugging migration command I got an error

First this my redmind environment

Environment:

```
Redmine version      2.0.3.stable.9882
Ruby version         1.8.7 (i686-linux)
Rails version        3.2.6
Environment          production
Database adapter     MySQL
Redmine plugins:
redmine_monitoring_controlling 0.1.1
```

This is the error message

```
1. rake --trace redmine:plugins:migrate RAILS_ENV=production
```

(in /usr/share/redmine-2.0)

- Invoke redmine:plugins:migrate (first\_time)
- Invoke environment (first\_time)
- Execute environment

rake aborted!
