Description			
It would be cool to have a possibility to embed a twitter status: https://dev.twitter.com/docs/embedded-tweets			
The syntax could be e.g. <code>[[twitter>219386125968617472]]</code>			
However... As twitter itself suggests for embedding:			
<ul style="list-style-type: none">• <code>[tweet https://twitter.com/AndriyLesyuk/status/219386125968617472]</code>• and just <code>https://twitter.com/AndriyLesyuk/status/219386125968617472</code>			
Maybe it worth supporting twitter's variant instead?.. Or all three variants?
