Sidebar Content - Feature #2109

Sidebar for global pages, which do not have one

Description

#1773 allows to enable sidebar for project pages only... Now I think it would be cool to have the same for global pages. Anyway currently, without #1771, it's useless to have sidebar enabled on global pages as there are no ways to put something there *(using this plugin)*.

Sample usage:

Perhaps, I would like to enable the sidebar for registration page and explain there why users should register...
