

SCM Creator (+Github) - Bug #2120

git_ext not applied when creating repository after project creation

08 Nov 2012 05:43 - Christian Rishøj

Status:	Closed	Start date:	08 Nov 2012
Priority:	Normal	Due date:	
Assignee:	Andriy Lesyuk	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	0.4.2	External issue:	
Redmine version:			

Description

The `git_ext` option adds a default extension to git repositories, and it works well when creating a new project and auto-creating a repository in the process.

However, when creating the repository after the project has been created, the `git_ext` option has no effect.

Here's a small patch that fixes the issue:

```
