Description

Hi, I've just read about wiking 0.0.3 from this news message : http://projects.andriylesyuk.com/news/52 and would like to propose new syntax rule, "news". This is not present in Redmine core.
Examples for implementation:

```
news:#news_id
news:"News title"
news:project_id:"News title"
```

History

#1 - 05 Dec 2012 17:09 - Andriy Lesyuk

- Status changed from New to Incomplete

In fact, it is... The syntax is news#<id>, see #9600

#2 - 05 Dec 2012 17:37 - Ivan Cenov

Wow, I have always tried news:421 ... it was news#421 ... my bad ...

#3 - 05 Dec 2012 17:43 - Andriy Lesyuk

- Status changed from Incomplete to Won't Fix

No problem! News titles are not supported though... I would not support them as well as they are of free form and can be changed.
