Applied fix of user#687 (#2136)

History

#1 - 09 Jan 2013 16:03 - Alexander Kuznecov

Hello,

We have faced with this error too:

```
NoMethodError (undefined method `empty?' for nil:NilClass):  
  vendor/plugins/extended_fields/app/models/user_list_setting.rb:40:in `columns'  
  vendor/plugins/extended_fields/app/models/user_list_setting.rb:14:in `initialize'
```

I have managed myself with fixing this error by changing line 40 in vendor/plugins/extended_fields/app/models/user_list_setting.rb
from
fields = list_class.default_columns.collect{ |column| column.name } if fields.empty?
to
fields = list_class.default_columns.collect{ |column| column.name } if fields.blank?

#2 - 10 Jan 2013 14:52 - Frank Dautzenberg

Going to try this solution in the testing environment.
How soon can we expect an updated package being available?

#3 - 10 Jan 2013 15:26 - Frank Dautzenberg

The solution was not really difficult to test
Worked OK!

#4 - 20 Jan 2013 23:39 - Andriy Lesyuk

- Status changed from New to Open
- Assignee set to Andriy Lesyuk

#5 - 24 Jan 2013 13:42 - Andriy Lesyuk

- Tracker changed from Bug to Patch
- Due date set to 24 Jan 2013
- Status changed from Open to Closed
- % Done changed from 0 to 100

Thanks for the fix, [Alexander!](#)
