

Extended Fields - Bug #2138

Issues count is not shown

15 Jan 2013 08:24 - Alexander Kuznecov

Status:	Closed	Start date:	15 Jan 2013
Priority:	Normal	Due date:	26 Jan 2013

Category:		Estimated time:	0.00 hour
Target version:	0.2.1	External issue:	
Redmine version:	2.2.1		
Description			
Hello,			
I have found that issue counter is not shown when issues grouped by some condition See screenshot example.			
After looking to view app/views/issues/_list.html.erb source code, I have changed one string and got issue count back: from			
<pre><%= group.blank? ? 'None' : column_content(@query.group_by_column, issue) %> (<%= @issue_count_by_group[group_name] %></pre>			
to			
<pre><%= group.blank? ? 'None' : column_content(@query.group_by_column, issue) %> (<%= @issue_count_by_group[group] %></pre>			
As it done in vanilla issues list view			
Could you please explain reason of changing 'group' to 'group name'? Probably I'm break something :) Thanks			
Tested on Redmine 1.4.6 / Ruby 1.9.3-p327 Redmine 2.2.1 / Ruby 1.9.3-p362

See [#2015](#). Will need to figure out why group.to_s does not work...
