History

#1 - 06 Mar 2013 17:28 - Christi Cummings

I am sorry this happens when I go to create a custom field under admin

#2 - 25 May 2013 21:57 - Andriy Lesyuk

- Status changed from New to Incomplete

- Assignee set to Andriy Lesyuk
- Target version set to 0.2.2

I'm very sorry for the late reply.

Looks like you have not executed rake redmine:plugins:migrate RAILS_ENV=production during installation... Have you?

#3 - 30 Jun 2013 18:40 - Andriy Lesyuk

- Target version deleted (0.2.2)

#4 - 30 Jun 2013 18:48 - Andriy Lesyuk

- Tracker changed from Bug to Support

#5 - 11 Jun 2014 21:50 - Andriy Lesyuk

[Christi](#), are you using PostgreSQL, maybe?

#6 - 12 Jun 2014 12:03 - Christi Cummings

We use the Bitnami download of Redmine.

#7 - 13 Jun 2014 13:57 - Cedric Courant

Hello, i've got the same behavior.

By the way, i tested with the bitnami stack 2.4.3, 2.5.0, 2.5.1 and got the same error after upgrading the database and restart the server.

More over after the plugin installed, in the admin panel, the project and user pages are no longer available due to an sql query on a user_listing table.

Hope that can be helpful to debug....

#8 - 13 Jun 2014 14:32 - Cedric Courant

I noticed that the database name is bitnami_redmine in the stack and not redmine instead of.

The db migration is not performing correctly...

#9 - 13 Jun 2014 15:19 - Cedric Courant

redmine:plugins RAILS_ENV=production works perfectly in fact

#10 - 13 Jun 2014 15:20 - Andriy Lesyuk

- Status changed from Incomplete to In Progress

Weird... DB migration script is rather simple... Not sure why it can fail. Will research more.

You mean: rake redmine:plugins:migrate RAILS_ENV=production ?

#12 - 16 Jun 2014 07:38 - Cedric Courant

actually this is the command given by the bitnami redmine website and it works, however maybe the one you provided work as well but i didn't test it...
