Meta - Bug #2163

My site's Display lanugage was only English, when I installed plugin

Description

I install Meta plugin, then my site's Display Language is Korean.
But displayed lauguage is English only.

My account's lanuage is Korean too.

I remove meta plugin then, everything is OK.

- Subject changed from My site's Display lanugage was only English, when I installed plugin. to My site's Display lanugage was only English, when I installed plugin

#2 - 11 Aug 2013 17:08 - Andriy Lesyuk

- Status changed from New to Incomplete

I failed to reproduce this bug...

The language of the site does not actually depends on the setting! Settings define the <u>default language</u> only! And the actual language depends on the browser's Accept-Language header.

Also, I see no way how this can be affected by the Meta plugin...

Can anyone else reproduce this bug?
