Description

If I am not mistaken, this very useful plug-in does not work with redmine 2.3.
Any chance to get it fixed?

Here is the trace produced by rake plugin migrate:

Could not reproduce the issue under 2.3.x...
Please check the plugin directory name, see [#2083](#).

You are right, I had forgotten the last sidebar argument on the svn co command line and as a result the plug-in directory was named **sidebar-content**. After renaming to **sidebar** the plug-in worked as expected.

This issue should be rejected.
Thanks.
