Description

UI loading ends with 500 error and the message in logs:

```
ActionView::TemplateError (string not matched) on line #24 of vendor/plugins/redmine_scm/app/views
/projects/settings/_repository.html.erb:
21: <% button_disabled = @repository.class.respond_to?(:scm_available) ? true : @repository.nil? %
>
22: <% if @repository %>
23: <%   button_disabled = ! @repository.class.scm_available if @repository.class.respond_to?(:scm
_available) %>
24: <%=    repository_field_tags(f, @repository)%>
25: <% end %>
26: </div>
```

Due to this error I can’t use my own plugin on my own site (this one)...
