#### Description

A hook can be added to a X.Y.Z version of Redmine and therefore not be available for previous versions. So placeholders.yml should have the additional :requires attribute, which would have format:

```
requires: 1.4.0
```

An extended format of the attribute can be, e.g.:

```
requires:  
  redmine: 1.4.0  
  chiliproject: 2.8.0
```

#### Associated revisions

##### Revision 36 - 12 Jun 2014 17:04 - Andriy Lesyuk

Added some new hooks and implemented support for requires (#2211)

#### History

##### #1 - 12 Jun 2014 17:05 - Andriy Lesyuk
