Description

Hi,

I use the custom field "Link" of this plugin. In the redmine item "Issues", when I add this field as column, the column appears but there is not content. The column is empty and the name of the custom field is disabled (gray).

How to fix this ?

Thanks

History

#1 - 06 Sep 2013 22:18 - Andriy Lesyuk

- Status changed from New to Incomplete

- Target version deleted (0.2.2)

With the latest fix for [#2197](#) custom fields of the Link type are rendered fine in the issue list. So, I guess, the issue has been fixed.

Please update from SVN and confirm.
