Redmine version:	2.3.1		

Description

Hi,
I use latest Redmine 2.3.x from their SVN repository and latest version of "download-button" from <http://svn.s-andy.com/download-button>

I tested in development mode on Ubuntu.

Here is that I see in log on accessing of any path on localhost, even <http://localhost:3001/>

```
Missing template, responding with 404
  Rendered common/error.html.erb within layouts/base (0.8ms)
Completed 500 Internal Server Error in 1018ms

ActionView::Template::Error (Missing partial download/sidebar with {:locale=>[:en], :formats=>[:html], :handlers=>[:erb, :builder, :rsb]}). Searched in:
 * "/mnt/disk/Devel/RoR/redmine-2.3/app/views"
):
 47:     <div id="main-menu">
 48:         <%= render_main_menu(@project) %>
 49:     </div>
 50:     <% end %>
 51: </div>

```

Do I miss something in installation?
