<b>Description</b> I have just finished my <a href="#">Project Sections</a> plugin, which adds a kind of project categories. One of the original ideas of this plugin (see <a href="#">#1777</a> and <a href="#">#2215</a> ) was to support per-section set of custom fields...  But now I wonder if this can be a feature of the Extended Fields... Such custom fields, like the issue ones, can be enabled or disabled in project settings.  Of course, sections seem to be better for this. But generally custom fields are out of scope for the <a href="#">Project Sections</a> and are good here. Or not?..  <b>Related issues:</b> <table><tr><td>Related to Projects - Feature #1777: Project categories or sections</td><td>Closed</td><td>03 Jun 2011</td><td>31 Aug 2013</td></tr><tr><td>Related to Project Sections - Feature #2215: Section specific custom fields</td><td>Closed</td><td>31 Aug 2013</td><td>14 Dec 2014</td></tr></table>				Related to Projects - Feature #1777: Project categories or sections	Closed	03 Jun 2011	31 Aug 2013	Related to Project Sections - Feature #2215: Section specific custom fields	Closed	31 Aug 2013	14 Dec 2014

History

#1 - 01 May 2014 20:25 - Andriy Lesyuk

- Target version set to 0.2.4

#2 - 15 Dec 2014 07:44 - Andriy Lesyuk

- Target version deleted (0.2.4)

By the way, the Project Sections plugin now adds the sections filter to project, version and issue custom fields.
