

Extended Fields - Support #2221

Need a fix for _list.html.erb

03 Sep 2013 14:15 - Andriy Lesyuk

Target version:		External issue:	
Redmine version:			
Description			
<p>I just found (that is, remembered) that the only reason the Extended Fields comes with the pre-patched _list.html.erb is that the group variable is not translated into string. This could be fixed in the core Redmine and can potentially lead to other bugs in third-party systems and Redmine itself.</p> <p>So, I need to check this again and file a fix request to Redmine.</p>
