<b>Description</b>			
Hi			
I have updated v0.2.1 to v.0.2.2. But the hint of custom fields has lost. I have to add the date manually			
redmine is 2.3			
Please help			
Thank you

You mean the hint is not shown? What about adding it back?  
Also I did not quite understand, what's wrong with the date...

Sorry for the wrong word. It should be data not date.  
You are right. the hint is not shown. it's null.  
I have added the hints back from the backup manually and no loss again.

So now all is ok? And the problem was, that the hint got lost on plugin update? Right?
