

Extended Fields - Bug #2258

Custom fields in spent time details are not shown

Target version:	0.2.3	External issue:	#15039
Redmine version:	2.3.x		

Description

If you have a custom field in your trackers, in Spent time view, in "options" section you can add this "column" to details view.

Misteriously the content is not shown in html view but if you click CSV you can see it there. This happens with either text or select content.

Using 0.2.2 Extended fields and Redmine 2.3.3

Could not reproduce this under Redmine 2.4.2...

#3 - 02 May 2014 22:15 - Andriy Lesyuk

- Status changed from Open to Incomplete

Failed to reproduce this under Redmine 2.3.x as well...

Can be fixed already - [Agustí Rivero](#), could you please try fetching new code from SVN and testing?

I installed a vanilla redmine 2.3.3 and SVN version of extended_fields.

I created two new custom attributes "custom wiki" and "custom text". Then I created an issue and defined those attributes.

They are shown on issue details (attached issuedetails.png) and on csv download file (attached csv.png) but it is not shown on HTML view (spendtime.png)

So, it is not yet working for me (or a vanilla install)

Regards

- File redmine-2.4.2.png added

- File redmine-2.4.5.png added

- File redmine-2.5.1.png added

Tried on different redmine versions:

2.4.2 - the issue persists (the same worked for Andriy)

2.4.5 - the issue persists

2.5.1 - module doesn't work

May be a gem version issue?
