Description				
It seems that it's not compatible with redmine_ckeditor plugin. When using "preview" it returns nothing, but only 403 forbidden error.

Vyacheslav, could you please provide logs?

Hello Anriy.

It seems that preview is not allowed. It's not related to redmine_ckeditor.

I changed

```
before_filter :check_settings, :except => :settings
```

to

```
before_filter :check_settings, :except => [ :preview, :settings ]
```

at *app/controllers/contact_form_controller.rb*

and everything is ok.

Hm... The problem is that you should not be able to access the contact form, if the preview gives 403...

Are you able to submit the form without preview? What is this form – for a user or the global one?

User is allowed to submit form (it works), but not allowed to preview.
I tried to send by administrator to user and by user to administrator - the same result.
Yes, a bit weird.
