

WordMine - Support #2285

Can't get this to work

21 Mar 2014 05:21 - Johnny Tide

Status:	In Progress	Start date:	21 Mar 2014
Priority:	Normal	Due date:	
Assignee:	Andriy Lesyuk	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
<p>I am trying to get this installed but I am having a lot of trouble.</p>			
Environment:			
Redmine version	2.5.0.devel.12986		
Ruby version	1.8.7-p352 (2011-06-30) [x86_64-linux]		
Rails version	3.2.17		
Environment	production		
Database adapter	Mysql2		
Redmine plugins:			
redpress	0.0.1b		
<p>I had to modify the RedPress plugin to get it to install.</p>			
<p>I installed the Wordmine plugin but after setting it up it logs me out and I can never log back in.</p>			
<p>I have set up two admins in Redmine before installing Wordmine.</p>			
<p>When trying to log in with one I get :</p>			
<p>ERROR: The password you entered for the username Tide is incorrect.</p>			
<p>The other user I get nothing it just clears the login boxes after pressing Log In.</p>			
<p>Is there any information I can give you that will help diagnose the issue?</p>

Here is a link to my Redpress issue <http://projects.andriylesyuk.com/issues/2284> .

#2 - 03 May 2014 19:32 - Andriy Lesyuk

- Status changed from New to In Progress

- Assignee set to Andriy Lesyuk

You needed to follow the steps described [here](#). It's normal behaviour, as WordMine changes the authentication style.

I'm also thinking about an approach, which would allow an admin user to always login using WordPress' credentials... Not ready for now.
