Description			
<p>Hi, I did some improvements to this plugin which make handling for enduser a lot better I think and are in use in our installations.</p> <p>In result this are 10 patches, I just append them here. Numbering is in order of apply (patch -p 1 < filename.patch)</p> <p>Inside each patch is the commit description what this patch does:</p> <ol style="list-style-type: none">1. hide the new repository button when it is disabled2. the button "create repository" is displayed only once and below the form as all other buttons, too.3. removed the login inputs for subversion repository 'cause them only are created local4. set extension ".git" for new git repositories if extension is enabled5. display original svn form if subversion creator isn't enabled. Belongs to patch 36. a better default repository name for git creator7. some improvements to the creation and add button8. remove create button from inside form, belongs to some patches before9. Special repository name input if allow_add_local == false. This means, it has now a more intelligent mask so no wrong repository names could entered10. display the clone/checkout url in top of a repository view so user without access to settings page can copy it easily <p>Hope, this patches helps you and your nice plugin.</p>

History

#1 - 06 May 2014 16:18 - Andriy Lesyuk

- Status changed from New to Under Verification

- Target version set to 0.5.0b

Wow! Thanks, [Elektritter](#)!

I will review them.

#2 - 08 May 2014 12:27 - Elektritter Messinger

- File 0013-Fix-a-problem-with-creating-svn-repositories-url.patch added

And of course I found a small bug inside my patches after upload: the js generating the url entry does not insert "file://" in front of subversion urls and since a while this is required in repository model when using subversion.

(0013 'cause I had a commit mistake and had to revert the commit, so 0012 was the revert of 0011)

#3 - 10 May 2014 22:39 - Andriy Lesyuk

So, the review results (will update this note with new ones):

- 0001 – I aim to drop patched files in future (_form.html.erb is one of them), when it becomes possible.
This patch adds a new reason to keep them, so I can't include it.
- 0002 – I like the current position of the button, so not applying it.
However, your patch shows where is the bug [#2238](#)! So, it helped me. Thanks!
- 0003 – Should we hide login/password, when local repositories are disabled? Why?
Not including it for now (while used to slightly modify it in [r136](#)).
- 0004 – Refactored your patch in [r137](#). Thanks a lot!
- 0005 – Not including it as well for the same reason.
- 0006 – Applied refactored patch in [r138](#). Thanks!
- 0007 – Same as 0002 – not applying.
- 0008 – Same as 0002 – not applying.

Thanks for sharing patches!

#4 - 11 May 2014 12:45 - Andriy Lesyuk

- Target version deleted (0.5.0b)

- % Done changed from 0 to 70

#5 - 17 Dec 2016 18:47 - Andriy Lesyuk

- Target version set to 0.5.1
