

Hooks Manager - Bug #2295

view_layouts_base_html_head hook not working

24 May 2014 15:25 - Fabien Crespel

Status:	Reopened	Start date:	24 May 2014
Priority:	Normal	Due date:	11 Jun 2014
Assignee:	Andriy Lesyuk	% Done:	90%
Category:		Estimated time:	0.00 hour
Target version:		External issue:	
Redmine version:	2.5.1		

Description

Hello,

It appears the view_layouts_base_html_head hook isn't working, because it's already used by the Hook Manager plugin itself to register its stylesheet.

See the attached patch for a simple fix (tested against Hook Manager 1.0.0 running on Redmine 2.5.1).

Thanks for making this plugin.

- Target version deleted (1.0.1)
- % Done changed from 100 to 90

Thanks for taking this bug into account and for fixing the plugin stylesheet issue.

However there is still an issue in version 1.0.1: the hook HTML code is automatically escaped, which makes it pretty useless in the head block.

Attached is a patch against 1.0.1 to mark the view_layouts_base_html_head hook HTML code as safe.
